Abstract

As microfinance gains increasing attention and application as a financing mechanism for entrepreneurs at the base of the economic pyramid, this Special Issue of *International Small Business Journal* aims to enhance scholarly understanding of how microfinance fosters entrepreneurial activity. Microfinance brings a range of financial services, including microcredit loans, savings, and insurance, within the reach of millions of poor households not served by traditional banks. This introduction summarizes the articles in this Special Issue of *International Small Business Journal* on 'Microfinance', which address a range of topics in this important domain of research and practice.

Keywords

bottom of the pyramid, entrepreneurship, financial inclusion, financing, microfinance

Introduction

Despite considerable growth in microfinance services worldwide over the last three decades, the impact of such services on entrepreneurship is not yet well understood. Indeed, the size of the microfinance industry – in terms of small, unsecured microcredit loans provided to poor households and individuals – is estimated at more than US\$ 80 billion in outstanding loans to more than 90 million clients (Roodman, 2013). Additionally, the definition of microfinance has expanded to include a broad range of products encompassing insurance, savings, funds transfers, mortgages,
