

# Project Management: Processes, Methodologies, and Economics (3rd Edition)

## What is Dynamic Project Management?

Dynamic Project Management is a **1 responsive system** for managing projects that helps teams **2 deal with uncertainty** and **3 respond quickly** to real world **4 changes in priorities and resources**.

### 1. Responsive system:

Combines a fluid process, adaptive methodology and a predictive, automated tool.

### 2. Deal with uncertainty:

The project timeline accounts for uncertainty; work is estimated in ranges to show best case and worst case scenarios.

### 3. Respond quickly:

Realtime project data is always accessible and risks are presented early; make informed decisions at a moment's notice.

### 4. Changes in priorities and resources:

Teams collaborate in a common platform with clear priorities; the project schedule automatically updates when resource availability or priorities change.
